

TRANSFORMING TOMORROW TOGETHER

Community Partnership Panel Meeting Summary

Ajo

December 1, 2016

Purpose

The [Community Partnership Panel](#) is hosted by Freeport-McMoRan to keep the community informed about operational activities and to foster open and ongoing dialogue to develop thoughtful solutions to address community issues.

Safety Share

The safety and health of all Freeport-McMoRan (FCX) employees, along with our commitment to the environment, are of the highest priority. Our objective is zero workplace injuries and occupational illness.

Industry/Business Update

For the most recent FCX financial information please visit: [Freeport-McMoRan Investor Center](#).

Community Engagement Update

Each year Freeport-McMoRan partners with **United Way** to ensure that a range of charitable health and human service organizations — in addition to the ones employees support — have the financial resources to provide critical services to those in need. The company's 2016 campaign ran from **October 28 through November 18**. To enhance employee donations, the Freeport-McMoRan Foundation will double match the first \$1,000 donated and single match any amount above \$1,000 to United Way.

Freeport-McMoRan had a record number of [Mini-Grants for Education](#) applications and this year awarded 64 programs. In Ajo, two projects were granted:

- **Native American Literature Project:** targeting 9-12th grades
- **Mathematics Manipulatives:** targeting 4-5th grades

The Freeport-McMoRan Foundation is proud to partner with the **Boy and Girl Scouts** near our operations. In 2016, \$50,000 was invested with local councils to support personal development, leadership experiences, financial literacy, STEM, community service and outdoor activities, etc.

- The Girl Scouts of Southern AZ received support to implement the Girl Scout Leadership experience.
- The Boy Scouts of America, Grand Canyon Council received support to implement Scouting Outreach.

Dig into Mining is Taking Students Outside the Walls of the Classroom with a Day of Learning—

Tune-in live on **December 13** as we take middle school students on a behind-the-scenes look into the copper industry, and see how companies like Freeport-McMoRan provide crucial, natural resources such as copper, and how it plays a role in our daily lives. Students will also meet industry professionals, including Geologists, Mining Engineers, Metallurgists and Reclamation & Environmental Managers as we discuss different careers and STEM applications found in each phase of copper recovery and answer student questions live!

During this Day of Learning, Dig into Mining will showcase a different phase within the mining process at the top of each hour, from 9 a.m. to 12 p.m. This flexible format will allow classrooms to tune-in at a particular hour throughout the day.

Community Discussion

Leadership Sustainable Communities Initiative

During the fourth quarter, the Panel welcomed the Ajo Cohort to present an update related to their work around the outcome, “increasing the number of business developed, attracted and/or retained.” Through their Asset Inventory exercise, the Ajo Cohort has identified the lack of business data as a “gap.” They hope to address this gap through community meetings and surveys (both consumer and business owner).

The CPP meets on a quarterly basis — for more information please contact Jessica Knowlton at jknowlton@fmi.com.
