

# TRANSFORMING TOMORROW TOGETHER

Community Partnership Panel Meeting Summary

Bisbee

December 15, 2016

## Purpose

The **Community Partnership Panel** is hosted by Freeport-McMoRan to keep the community informed about operational activities and to foster open and ongoing dialogue to develop thoughtful solutions to address community issues.

## Safety Share

The safety and health of all Freeport-McMoRan (FCX) employees, along with our commitment to the environment, are of the highest priority. Our objective is zero workplace injuries and occupational illness.

## Industry/Business Update

For the most recent FCX financial information please visit: [Freeport-McMoRan Investor Center](#).

**Sulfate Mitigation** — Long-term groundwater monitoring, an option selected by the Arizona Department of Environmental Quality, is continuing.

**Stockpile Reclamation** — Work is focused on stormwater management projects and placing cover material on the South Bisbee Stockpile. The Reclamation Crew will relocate to Miami after the first of the year and return at a later date to continue with stockpile reclamation at the Copper Queen Branch.

**Copper Queen Branch** — Stormwater management, erosion repair, weed control and scrap metal recycling are ongoing.

The air quality permit for the CQB emergency generators was renewed.

## Community Engagement Update

Each year Freeport-McMoRan partners with **United Way** to ensure that a range of charitable health and human service organizations — in addition to the ones employees support — have the financial resources to provide critical services to those in need. The company's 2016 campaign ran from **October 28 through November 18**. To enhance employee donations, the Freeport-McMoRan Foundation will double match the first \$1,000 donated and single match any amount above \$1,000 to United Way.

The Freeport-McMoRan Foundation is proud to partner with the **Boy and Girl Scouts** near our operations. In 2016, **\$50,000** was invested with local councils to support personal development, leadership experiences, financial literacy, STEM, community service and outdoor activities, etc.

In Bisbee, the Girl Scouts of Southern Arizona and Catalina Council, Boy Scouts of America received support to:

- Girl Scouts of Southern AZ – Girl Scout Leadership Experience
- Catalina Council, Boy Scouts of America – General Operation Support for Scouting

### **Dig Into Mining is Taking Students Outside the Walls of the Classroom with a Day of Learning—**

On December 13 we took middle school students on a behind-the-scenes look into the copper industry, to see how companies like Freeport-McMoRan provide crucial, natural resources such as copper, and how it plays a role in our daily lives. Students met industry professionals, including Geologists, Mining Engineers, Metallurgists and Reclamation & Environmental Managers and discuss different careers and STEM applications found in each phase of copper recovery and answered student questions live!

During this Day of Learning, Dig into Mining showcased a different phase within the mining process at the top of each hour, from 11AM ET to 2PM ET. This flexible format allowed classrooms to tune-in at a particular hour throughout the day.

### **Community Discussion**

#### **Leadership Sustainable Communities Initiative**

During the fourth quarter, the Panel welcomed the Bisbee Cohort to present an update related to their work around the selected outcome of “increased number of business developed, attracted and/or retained.”

The CPP meets on a quarterly basis — for more information please contact  
Jessica Knowlton at [jknowlton@fmi.com](mailto:jknowlton@fmi.com).
